

Code-Layout, Readability and Reusability

Date	03 July 2024
Team ID	SWTID-2026-9778
Project Name	Credit Card Approval Prediction
Maximum Marks	5 Marks

Code-Layout, Readability and Reusability:

This document evaluates the quality of the codebase in terms of its structure, readability, and reusability. Well-organized code with proper naming conventions, comments, and modular design ensures that the project is maintainable and can be extended or reused in future development.

Code Layout Checklist:

S.No	Code Quality Parameter	Description	Followed (Yes / No / Partial)	Remarks
1	Consistent Indentation	Uniform spacing/tabs used throughout the code.	Yes	Proper indentation maintained
2	Proper File Structure	Files and folders are logically organized	Yes	Separate folders for dataset, model, templates, static files
3	Meaningful Variable Names	Variables reflect their purpose clearly	Yes	Descriptive variable names used
4	Function / Method Names	Functions are descriptively named	Yes	Easy to understand and maintain
5	Code Comments	Inline and block comments explain logic	Yes	Important sections documented
6	Modular Design	Code is split into reusable functions/modules	Yes	Separate preprocessing, training, prediction modules
7	No Redundant Code	Duplicate or unused code is removed	Yes	Optimized implementation
8	Error Handling	Exceptions and errors are handled gracefully	Yes	Input validation and exception handling included

Reusable Components / Modules:

S.No	Component / Module Name	Language / Technology	Where Reused	Reusability Level (High / Medium / Low)
1	Data Preprocessing Module	Python, Pandas	Model Training & Prediction	High

2	Feature Engineering Module	Python, NumPy	Python, NumPy	High
3	ML Prediction Model	Scikit-learn	Credit Card Approval Prediction	High
4	Flask Web Application	Flask	User & Admin Interface	Medium
5	Database Operations	SQLite / MySQL	Store Applicant Records	High

Overall Code Quality Assessment:

Aspect	Rating (1-5)	Comments
Code Layout & Structure	5	Well-organized project structure
Readability	5	Clear naming conventions and comments
Reusability	5	Modular and reusable components
Documentation / Comments	5	Proper documentation provided
Overall Score	5/5	High-quality, maintainable codebase
