

Project Demo Planning

Date	04 July 2026
Team ID	SWTID-2026-9778
Project Name	Credit Card Approval Prediction
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Introduce the project, explain the need for automating the credit card approval process, and discuss existing challenges.	2	Gorantla Anil kumar
2	Solution Overview	Explain the system architecture, machine learning workflow, dataset, technologies used, and prediction process.	3	KARAPAKULA NANDISWAR
3	Live Feature Demonstration	Demonstrate user registration, login, application submission, credit card approval prediction, and result display.	6	Boddu Sumanth
4	Model Performance & Results	Present model accuracy, evaluation metrics, performance testing results, and prediction examples.	2	Varun Kumar Reddy Chintha
5	Future Enhancements	Discuss future improvements such as real-time banking API integration, cloud deployment, and enhanced security.	1	Dhanush Trirumanyam
6	Questions & Answers	Address questions from the evaluation panel and provide project clarifications.	1	Entire Team

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explain the importance of accurate and automated credit card approval using machine learning.
2	Solution Overview	Present the architecture, dataset, machine learning model, Flask application, and project workflow.
3	Live Feature Demonstration	Demonstrate registration, login, applicant data entry, prediction generation, and approval/rejection result display.
4	Q&A Session	Answer evaluator questions and explain implementation details, model performance, and future enhancements.
